Features

- 360° surround airflow, wide air supply range, more uniform temperature distribution, more comfortable experience.
- Slim body and space saving, the thickness is only 205mm for 18K/24K/36K model, 290mm for 48K/60K model.
- Optimized designed structure and panel, large air volume and good appearance.
- · High heat-transfer efficiency heat exchanger.
- · High-density multi-fold filter to effectively filter particulate dustin the air and make the air fresher
- Low-noise operation to create a comfortable resting environment.
- Factory installed DC water pump which can lift the condensate water to 1200mm.
- · 24V communication or RS485 communication.
